

ANNALS INDEX VOLUME 38

Honggen Xiao

The Hong Kong Polytechnic University, Hong Kong

This volume contains seventy-two main articles, fifteen research notes and reports, one rejoinder and commentary, and thirty-seven publications in review, with a total of 203 author appearances. As a reflection of these contributions to the overall knowledge landscape of *Annals*, this volume index both maintains as well as expands the journal's comprehensive "Subject Index" <www.elsevier.com/locate/annals>. Eleven new subjects, including topical, geographical and organizational terms, were introduced into the headword list of the cumulative index. They are: Actor, Amazon, ASEAN (under *Organization and Association*, *Intergovernmental*), Baltic, Bosnia and Herzegovina, Creativity, Geology, Macau, New Caledonia, Oil, and Sleep. The expansion of knowledge on existing subjects can be seen from the following headwords: Experience, co-created; Industry, creative; Knowledge, consultancy, synthesis; Methodology (under Data Collection), time budget; Paradigm, critical tourism studies, participatory; Social, norm; and Theory, psychoanalytic.
